

SAHIL BASHEER SHAIK

Varad Vinayak Society, A/104, Plot 4/27, Sector-7, Khanda Colony, New Panvel

☎ +91-8169870210 ✉ sksahil3324@gmail.com [in sahil-shaik24](https://www.linkedin.com/in/sahil-shaik24) [github sksahil0324](https://github.com/sksahil0324)

Summary

Aspiring Software Engineer candidate with strong foundations in Java, databases, and computer science. Skilled in crafting bespoke enterprise systems using Java/J2EE, SQL, and full-stack frameworks, with experience in SDLC, debugging, TDD, assisting in crafting customer experience through microservices, distributed systems, and cloud services. Proficient in Big Data technologies and familiar with Asset Liability Management (ALM), financial services, and liquidity risk management practices. Familiar with emerging technologies like blockchain, IoT, and cybersecurity, along with analytical applications for cost allocation, asset management, CRM, and eGRC solutions. Demonstrated exceptional relationship building skills as ISTE Treasurer, handling financial planning and event execution, and proofing technical documentation. Customer Requirement analysis and adaptability to changing needs have been key to my success in building scalable, client-focused solutions while analyzing complex data sets and collaborating with cross-functional teams, proactively driving operational efficiency through Governance and Problem Solving strategies, while embracing technological innovation. Seeking to leverage my skills and knowledge in Global Business environments to contribute effectively as a proactive team member to diverse teams while exploring innovative technology solutions in the role of an Analyst, staying ahead of industry trends.

Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University <i>B.Tech in Computer Engineering (Minor: Data Science), CGPA: 8.12/10</i>	July 2022 – July 2026 <i>Navi Mumbai, India</i>
New Horizon Public School <i>12th Grade, Percentage: 68%</i>	May 2020 – July 2022 <i>Navi Mumbai, India</i>
New Horizon Public School <i>10th Grade, Percentage: 87.4%</i>	May 2007 – April 2020 <i>Navi Mumbai, India</i>

Experience

Next24tech Technology & Services (Remote) <i>Java Developer Intern</i>	July 2024 – September 2024
- Developed a resume builder with export templates (100+ users), an encrypted live chat app, and a data visualization tool (500+ entries) while implementing application server architecture for efficiency using UNIX and Shell Scripting in a UNIX environment. - Applied Agile methodologies and code review processes with Jira, focusing on scalable design, debugging, and deployment Java, Eclipse, and Electron, ensuring adherence to test case development and Junit implementation in line with operational efficiency standards and User Acceptance Testing processes. Informatica and Oracle Data Integrator were essential in data processing.	
SkillCraft Technology (Remote) <i>Machine Learning Intern</i>	September 2024 – October 2024
- Built supervised deep learning models (85% accuracy) using scikit-learn and pandas in the context of employee benefits analytics, emphasizing Information Management practices and resilience in handling data with a focus on Capital Market insights. - Created a feature engineering pipeline reducing test time by 40%, integrated with MySQL for optimized data handling and information technology solutions, while applying PL/SQL for data processes, contributing towards innovative solutions for diverse business needs in the finance domain, particularly in the PC, insurance, and Reinsurance sectors.	

Projects

TextTrinity: Unified NLP Platform <i>Python, Flask, spaCy, Transformers</i>	Nov 2024 – Feb 2025
- Built a multi-modal NLP pipeline integrating summarization, keyword extraction, and text-to-speech. - Reduced latency by 35% using quantization and database optimizations, while ensuring data integrity and regulatory standards. - Delivered Flask REST APIs (50+ concurrent users) backed by PostgreSQL, optimized for new trend frameworks, and ensuring competency in the integration of Weblogic and Global Delivery strategies while showcasing service lines and adhering to testing service standards within a Technology Consulting framework.	
Offline Document Intelligence System <i>Python, FAISS, Hugging Face, Quantization</i>	May 2025 – July 2025
- Developed a retrieval-augmented generation pipeline with FAISS, achieving 42ms latency on 10K+ documents. - Built a document querying tool for PDF/DOCX/TXT files with robust error handling, ensuring compliance with data integrity and regulatory standards, particularly within Risk Consulting frameworks and Lease management scenarios. - Enhanced workflows through unit tests, agile sprints, and mentoring peers on prioritization and reasoning in a business domain context, applying accountability to project management and troubleshooting traditional methodologies. Applying business intelligence strategies to enhance decision-making within Finance Transformation initiatives.	
Library Management System <i>Java, JDBC, Oracle SQL</i>	Mar 2025 – May 2025
Designed a desktop-based system for managing books, users, and transactions with Oracle Database backend, incorporating JMS for messaging services and SOAP for communication, ensuring a user-friendly UI experience.	

- Implemented JDBC connectivity for CRUD operations and optimized SQL queries using Release Notes as documentation, facilitating efficient test planning and adherence to standards.
- Added role-based access (Admin/Student) with secure login and input validation via SAML for authentication, ensuring a focus on Approachability and Detailed Oriented design.

Technical Skills & Certifications

Languages: Python, Java, JavaScript, HTML/CSS, SQL	AWS: AWS Cloud Practitioner Course (via GeeksforGeeks)
Frameworks & Libraries: React, Flask, FastAPI, Tensor-Flow, scikit-learn, spaCy	Microsoft: Build a Computer Vision App with Azure Cog- nitive Services, Azure AI Essentials Professional Certificate
Tools & Platforms: Git, Docker, FAISS, Hugging Face, VS Code	ServiceNow: IT Leadership Professional Certificate
Core Competencies: Data Structures & Algorithms, Dis-tributed Systems, OS, Relational Databases	Alteryx: Designer Core Micro-Credential
	Cisco Networking Academy: Data Analytics Essentials Certificate (Jun 2025)

Leadership

ISTE-RAIT	July 2025 – Present
<i>Treasuer</i>	<i>Navi Mumbai, India</i>
• Overseeing financial planning, budgeting, and fund allocation for ISTE activities • Coordinating with faculty and sponsors to ensure transparent financial management.Responsible for supporting planning and execution of workshops, hackathons, and technical events within the banking domain and BFsi sector. • Supporting planning and execution of workshops, hackathons, and technical events within the banking domain and BFsi sector.	

Extracurricular

EduSkills TECH CAMP	October 2024
<i>Alteryx Data Analytics Workshop, EduSkills Foundation</i>	
• Designed ETL pipelines and automated workflows using Alteryx. • Created dashboards for banking use cases and presented findings in pharma analytics. • Ensured compliance with data integrity and regulatory standards in applied projects. • Ensured compliance with data integrity and regulatory standards in applied projects, illustrating innovation and inspiring others through results while applying analytical techniques in various scenarios.	

Hobbies

Programming, Chess, Reading, Gaming, Badminton
